Roxbury, Feb. 18, 1853.

CITY OF ROXBURY, FEBRUARY 25, 1853.

The undersigned, Joint Standing Committee on Accounts, in pursuance of the provisions of the eighth section of the Ordinance entitled "An Ordinance establishing a system of Accountability in the Expenditures of the City," requiring them to audit the Account of the City Treasurer at the close of each municipal year, and as much oftener as they may deem expedient, hereby certify that we have examined and audited the within account of JOSEPH W. DUDLEY, City Treasurer, and find the same correctly cast; and all payments and expenditures therein charged against the City, are sustained by necessary vouchers.

We find that there has been received into the Treasury, at sundry times within the year ending January 31, 1853, the sum of *one hundred and fifty-three thousand three 8-100 dollars*, which, with the balance on hand January 31, 1852, of thirty thousand three hundred and seventeen 87-100 dollars, makes a total receipt for the year of *one hundred and eighty-three thousand six hundred and seventy 95-100 dollars*, and that there has been paid out from the Treasury, during the same period, the sum of *one hundred and sixty-nine thousand eight hundred and forty 15-100 dollars*; leaving in the Treasury, January 31, 1853, a balance of *thirteen thousand eight hundred and thirty dollars and eighty cents*.

REPORT

OF THE

OVERSEERS OF THE POOR.

CITY OF ROXBURY, FEBRUARY 15, 1853.

THE Overseers of the Poor of the City of Roxbury, respectfully submit the following

REPORT :

For the year ending with the 31st ult., the Poor of this City have been located at Brook Farm, and the expediency of removing them to that place, instead of remaining at the old establishment upon Highland Street, is no longer an experiment.

That they have been more appropriately provided for, and their physical condition benefited, is beyond dispute. In a pecuniary point of view we are satisfied the City has been benefited by the change ; the report of the expenses, compared with the preceding year, confirms it.

The Brook Farm establishment has cost the City some \$29,000, including the original purchase, and after the Commonwealth shall have provided their contemplated buildings for the reception of the State Paupers, (although there is no prospect of their being ready until nearly the close of the present year,) it might appear that we could provide for the support of such paupers as properly belong to us in a less extensive establishment. But upon this point " It is a question whether or not the establishment cannot be sustained with greater economy to the City at Brook Farm, even after the State shall have removed the greater portion of the inmates, than at any other place," and the expediency of providing a new place for the reception of our poor, or of retaining them at the present location, will devolve upon the City Council.

The Farm during the past year has been under the supervision of Mr. Meserve, the superintendent of the House, and to whose good judgment we feel that such a favorable report of its condition can be made as he presents.

Of Mr. Meserve we can but repeat what has been uniformly said in former Reports, that he has been faithful in the discharge of his various callings, and we feel that the City is peculiarly fortunate in securing the services of a man so well adapted in every particular to the place he occupies.

The Report of the Physician, Dr. Ira Allen, is presented with this Report, by which it appears there has been less sickness than in former years, and by the Report of the Superintendent, and confirmed by actual observation of this Board, it further appears that he has been very attentive to the wants and comforts of the sick. We are satisfied that he has applied himself with zeal and fidelity to his various duties, and, in our opinion, the department filled by him has been promptly and faithfully attended to.

Religious services, on the Sabbath, in the early part of the year, were performed by Mr. Ritchie, but he was compelled, in consequence of more pressing claims, near home, to relinquish the charge; since which time, and at the present, these duties have been very acceptably performed by students from the Theological Institution at Newton.

The school now consists of sixty-two children, from five to fifteen years of age,—average age nine years. Since the last Report Mr. A. C. Page has taken charge of the school, and the scholars are at all times under his eye. The children are kept apart from the adult inmates of the house, and take their meals by themselves under the teacher's inspection. During the summer the boys are required to attend to light work upon the Farm, which is not only amusing, but also promotes health and imparts instruction; this, however, does not interfere with their regular studies in the school room. From the Report of the School Committee, who visit the school every month, we learn that the school is in as good a condition as any school of like numbers in this City, and they also report that the teacher is not only competent, but devoted to his calling. When it is considered, that with a majority, probably, under his charge, the education which they here acquire will be all they ever will receive, it becomes us, as also the School Committee, to look well to their interests, and that all that ought to be done for them be done cheerfully and without stint.

The account against the Commonwealth for the support of "State Paupers" and "Ship Fever Patients," for the year end-

ing 31st of October, 1851, amounting to \$5,824 85, was presented at a proper time for allowance, and we have every reason to suppose the same would have been paid, but by the Rule applied by the "State Auditor," and confirmed by the Committee on Accounts of the Legislature for 1852, only \$3,262 67 was allowed, leaving \$2,562 18 due on the same. Their deduction was made by disallowing our charge of \$2 50 per week for "Ship Fever" cases, and allowing only *seven cents* per day, and also by refusing to allow any charge for the support of paupers who were *not sick*, notwithstanding they might be poor and have no means of support.

The account against the Commonwealth for the support of State Paupers for the year ending 31st of October, 1852, amounting to \$2,480 15, we have every reason to believe will be allowed and paid in full, as we have taken especial care not to make any charge against the Commonwealth which may or can be liable to the objections raised by the Auditor and Committee on Accounts for the previous year. It will be perceived that the bill is for a much less amount than that of the previous year, but it should not be considered that the City will receive the whole of its just claim against the State; but by the *Rule*, as applied above, we consider the City is barred from its just and equitable claim.

The following is a statement of the Receipts and Expenditures for the support of the Poor of the City from Feb. 1, 1852, to January 31, 1853, inclusive.

The most of the Beef was purchased in Brighton, and slaughtered here.

The most of the ground cultivated, produced very well. I planted 5 $\frac{3}{4}$ acres to corn, and harvested on an average, 76 $\frac{1}{2}$ bushels to the acre. The potatoes were injured by the severe drought. The root crop was very good. I took from 1 $\frac{3}{4}$ acres of ground, 30 tons of carrots.

Much of the work has been done by the largest of the school boys, such as hoeing, weeding, &c., which I think has been for their interest, in learning the use of farming implements and the mode of doing work properly. I have made some improvement the past Summer and Autumn, in ploughing and manuring the meadow land. I have ploughed and sowed to grass seed of the

meadow and upland, 10 acres. I have prepared and sowed $4\frac{1}{2}$ acres to winter rye. I have also prepared some of the ground for root crops, by manuring and deep tilling with the two share plough, the one in advance of the other. I have a large quantity of manure on the farm ready for use as soon as the Spring opens. I am happy to say to you that the removal of the inmates to Brook Farm has had a very evident effect upon them for the better. Being removed from the numberless unwholesome influences of the city, there is now no difficulty in keeping good order and sobriety. They perform their duties cheerfully, and appear to look with much satisfaction upon the fruits of their own industry. We have had religious services the most of the time during the year. The Rev. J. Ritchie preached the first part of the year, but we are now supplied by students from the Theological Institution at Newton.

The Physician, Dr. Allen, has been very attentive during the year, and has been ready by day or night to attend to the sick and suffering.

For a statement of the medical department please see physician's report. My assistants have acquitted themselves of the various duties they have had to perform, cheerfully and satisfactorily. Mr. A. C. Page, the school teacher, has been very attentive to his charge, and it has been marked with good results.

Respectfully submitted,

ISAAC H. MESERVE,
Superintendent of Almshouse.

REPORT

OF THE

PHYSICIAN TO THE ALMSHOUSE.

To the Overseers of the Poor of the City of Roxbury:

GENTLEMEN—It becomes my duty to make to you an Annual Report of the cases which have come under medical treatment at the Almshouse during the past year, viz: from February 1st, 1852, and ending January 31st, 1853, which were of that character to require admission to the Hospital.

The first of February, 1852, under treatment,	21
Admitted during the year,	224
	245
Recovered and discharged,	212
Died,	15
Remaining under treatment,	18
	245

The diseases were various, but generally presented no very marked peculiarity. The following is a summary of the diseases that have prevailed during the year.

Typhus Fever, (ship,)	20
Typhoid Fever,	31
Scarlet Fever,	2
Lung Fever,	5
Disease of Bowels,	26
Disease of Eyes,	45
Disease of Skin,	19
Childbirths,	11
Consumption,	8
Other Diseases not enumerated in the foregoing,	78
	245

There have been eleven births in the house during the year. Many of those who are now under treatment were admitted with chronic diseases, and some of them beyond any hope of recovery, and necessarily require much care and attention to keep them comfortable.

There have been admitted from West Roxbury to the Almshouse, a number of sick persons, for whom the Town has paid to this City for each of them, extra pay, for attendance, nursing, &c., some of whom are now under treatment in the Hospital.

The sick have uniformly received every necessary attention from the Superintendent and wife, also from those under them, whose special duty is to take care of the sick.

With many thanks for the uniform kindness and courtesy I have received from the Board the past year,

I remain, very respectfully, your obedient servant,

IRA ALLEN,

Physician to the Almshouse.

Roxbury, Jan. 31st, 1853.

REPORT

OF THE

COMMISSIONERS OF FOREST HILLS CEMETERY.

IN conformity to the fifth section of "An Act relative to a Public Cemetery in the City of Roxbury," the Commissioners respectfully submit their

FIFTH ANNUAL REPORT.

The interest which gathers around the consecrated spot, known as the Forest Hills Cemetery, has greatly increased during the past year. And as its beauties become gradually more and more developed, there is reason to expect that it will become an object of stronger and growing attraction, not only to those whose departed friends sleep within its hallowed enclosure, but to all who have taste to discern and sensibility to appreciate its quiet loveliness, and its beautiful fitness as the resting place of the dead.

During the past season it has been much frequented, so that a regular omnibus communication has been opened to convey persons to and from the grounds. This growing interest has manifested itself, also, in an increased demand for the purchase of lots in the Cemetery. In order to meet this demand and carry forward the projected improvements of the Cemetery, about thirty-three workmen, upon an average, have been employed during the year. During this time one hundred and twenty lots have been completed; avenues and paths have been extended, and large portions of them thoroughly graded, by removing the loam and filling the excavation with stone and covering with gravel. This

process, though somewhat laborious and expensive, is deemed highly economical, as all improvements in this department of the Cemetery are of a permanent character, and will abide for successive generations.

In the southerly part of the Cemetery, about ten acres have been planted with a variety of forest trees, taken from the Forest Hills Nursery. A sufficient quantity of trees still remain in the nursery to plant over the whole unwooded portion of the Cemetery grounds.

During the season, forty-six lots have been enclosed with iron fences, and six with hedges. Twenty-four monuments have been erected. One of the most attractive of these, is that noticed in the last Report as then contemplated, which the respect and love of the citizens of Roxbury and a few other friends, have erected to the memory of the lamented Dearborn. It stands upon the summit of that beautiful elevation known as Mount Dearborn. The cost of the monuments has varied from \$100 to \$1,500 each.

In addition to these, monumental slabs, of various devices, have been placed in private lots to mark the spot where loved ones repose.

Five family tombs have been constructed during the year.

Two large receiving tombs, also, each 16 feet by 8 feet and 7 feet high in the clear, have been built near Lake Dell, at the junction of Chestnut and Tupelo Avenues, at a cost of about \$1,000.

The Commissioners take pleasure in being able to report, that they have paid during the last year \$3,406 57 of the principal of the notes given by the City to J. Parkinson, for land purchased of him for the Cemetery; which, added to the sum of \$343 12, previously paid, amounts to \$3,749 69.

The amounts now due on notes given by the City for Cemetery grounds are as follows, viz. :—

Notes given to J. Parkinson,	\$4,200 00
Notes given to Joel Seaverns on account of the first purchase of land,	\$19,944 98
Notes given to Joel Seaverns for land purchased the last season,	\$9,000 00
	<hr/>
Leaving a present debt for Cemetery lands of	\$33,144 98

There have been, during the last year, in private lots and in graves in the Field of Machpelah, 289 interments.

The Commissioners have long felt the importance of adding to the Cemetery a part or all of the balance of the Seaverns farm ;

and previous to the last year several ineffectual efforts were made to obtain from the owner a price at which they could recommend to the City Government its purchase. Early the last Autumn, having obtained a price which was satisfactory to themselves, they immediately made known the same to the City Council, and recommended the purchase. The City Council, with the exception of a single vote, unanimously passed an order authorizing the Commissioners to purchase the balance of the farm, and the City Treasurer to issue the scrip of the City for \$9,000, in payment for the same.

The amount of land contained in this purchase, according to survey of C. H. Poole, is 32 acres 2 qrs. 36 rods.

The Commissioners, in laboring to effect this purchase, were influenced by several important considerations. The prospective need of a larger area for the purposes of the Cemetery seemed to render it desirable. The outline of the Cemetery, by this purchase, is made much more regular and complete,—a corner is filled which before was wanting. The extent of fencing around the whole 104 acres 1 quarter and 6 rods,—the present amount of Cemetery grounds,—is but a trifle more than that around the 71 acres 2 quarters 10 rods, the former area.

The location of Lake Hibiscus, moreover, on the border of this land, prevented the extension of this beautiful sheet of water by excavation in that direction, or making any avenues or paths around it.

Another acquisition in this purchase is the amount of sods which may be taken from its surface for the purposes of the Cemetery. By reference to the expenditures of the Cemetery the last year, it will be seen that \$802 31 were paid for sods. This sum does not include at least \$200 worth of sods taken from this piece of land after its purchase. Something also is saved in the expense of carting, by having sods near at hand. It is evident, therefore, that an amount will be saved to the Cemetery by this purchase in the single item of sods, more than equalling the interest on \$9,000, the cost of the land.

The receipts and expenditures have been as follows:—

The Commissioners would hardly do justice to their own convictions not to allude, before closing their report, to the importance which they attach to the enterprise entrusted to their hands.

The few years which have elapsed since the opening of Forest Hills Cemetery have amply illustrated the need of such a sacred spot as the receptacle of our multiplying dead. And there is a grateful relief to stricken and crushed affection in depositing the cherished remains of its object beneath the shadow of living trees and the incense of fragrant flowers, which are the suggestive emblems of a coming resurrection for the departed, rather than amidst the sombre and gloomy tokens of corruption and forgetfulness, which once characterized our public burial grounds.

And every passing year, as it gathers the departing members of our households, the honored and the loved, to their repose in this beautiful garden of graves, must enlist a continually increasing interest in the living, to perfect and perpetuate those improvements and embellishments so happily commenced. No selfish or private interest can ever interfere, so far as we can see, with these improvements; since by a wise Act of the Legislature of the Commonwealth, passed at the solicitation of this City, all the receipts of the Cemetery must be applied to liquidate the debt incurred in the purchase of the grounds, and to improve and beautify the same perpetually.

For their success hitherto, the Commissioners are greatly indebted to the taste and skill, as well as to the judicious and indefatigable efforts of Mr. Brims, the efficient Superintendent of the Cemetery. Their thanks are due, also, to J. W. Dudley, City Treasurer, and to J. W. Tucker, City Clerk, for the prompt discharge of their respective duties, by which the endeavors of the Commissioners have been facilitated.

In addition to An Act relating to a Public Cemetery in the City of Roxbury.

Be it enacted by the Senate and House of Representatives, in General Court assembled, and by the authority of the same, as follows :

SECT. 1. The board of commissioners of the rural cemetery in Roxbury, elected by the city council, pursuant to an act approved March 24, 1848, are authorized to take and hold any grant, donation or bequest of property, upon trust, to apply the same, or the income thereof, for the improvement or embellishment of the said cemetery, or for the erection, repair, preservation or renewal of any monument, fence or other erection, or for the planting and cultivation of trees, shrubs or plants, in or around any lot; or for improving the said premises in any other manner or form, consistent with the purposes for which said cemetery is established, according to the terms of such grant, donation or bequest. And whenever any such grant, donation or bequest, or any deposit shall be made by the proprietor of any lot in said cemetery, for the annual repair, preservation or embellishment of such lot and the erections thereon, the said commissioners may give to such proprietor, or his representative, an agreement or obligation, in such form and upon such terms and conditions as they may establish, binding themselves and their successors to preserve and keep in repair said lot forever, or for such period as may be agreed upon.

SECT. 2. Any sums of money, so received by said commissioners, shall be invested by the city treasurer of Roxbury, under the direction of said commissioners, in public stocks or mortgages of real estate, and all such property, received under the provisions of the foregoing section, (unless other provision is made by the terms of any such grant, donation or bequest,) shall be made under the charge of said city treasurer, but shall always remain separate from and independent of any other moneys or property belonging to the city of Roxbury, and free from the control of the city council. And the income of such fund, or funds, shall be received by said treasurer, subject to the order of said commissioners, and shall be appropriated by them in such manner as shall, in their opinion, best promote the purposes for which said grants, donations, bequests or deposits are made.

SECT. 3. The city of Roxbury shall be responsible for the good faith of said commissioners, and the treasurer of said city, in the execution of any trust which they may assume pursuant to the foregoing provisions. But said commissioners shall not be liable to make any renewal or reconstruction of any monument, or other erection on any lots in said cemetery, unless such liability shall be expressed in the agreement given by them as aforesaid, or in the terms and conditions under which they accept any grant, donation or bequest.

SECT. 4. This act shall be void unless the city council of Roxbury shall accept the same, at a meeting of said council called for that purpose, within thirty days after its passage.

SECT. 5. This act shall take effect from and after its passage.—[*Passed February 25, 1852.*]
